

Sno Gem Corporate Office

About Our Company

It takes the unique insight of a family rich in both sheet metal and roofing industry experience to design and develop the "Ultimate Snow Guard." Founded in 1994, Sno Gem, Inc. has leveraged over 50 years of experience in architectural sheet metal and roofing to develop highly effective and aesthetically pleasing snow guards, from the Original Polycarbonate, to the innovative Sno Barricade Systems.

In a challenging economic climate, it is more important than ever to put your trust in a financially sound partner with a demonstrated history of success. Sno Gem, Inc. has positioned itself for continued

growth and the ability to invest significant resources in product research and design. Every snow guard project poses special challenges which require cutting edge technology and a company with an attention to detail second to none. Our products can be manufactured in a variety of materials and to precise color requirements.

Sno Gem, Inc. maintains a dedicated sales staff that is continually educated on the latest advancements in roofing system technology to ensure the right snow guard application for your project. Every order is shipped with detailed installation instructions for an easy, hassle free installation.

"Who says snow fences don't hold in our climate? Obviously they haven't seen the Sno Gem System. Happy New Year."

Scott Ryan - Ryan Group Architects
